Service                                )           MB Docket No. 99-25

My name is James L. Williams and I strongly support any actions the Federal Communications Commission can take to expand and support the Low Power FM radio service. I am particularly interested in encroachment of other stations whether they be commercial or non-commercial. When significant sums of money are spent to start a radio station not to mention the hours involved it is DIRTY to allow this to continue. Thank You For Your Time!---Jim Williams
